

Assignment 1 – Case Study: Ice Breaker

Chapter 3, Mastering the Requirements Process contains a description of the Ice Breaker project.

You are a business analyst starting work on this project.

- Review the case study and determine the following:
 - The goal & scope
 - Stakeholders
 - Sponsor
 - Customer
 - Constraints and risks

Your assignment should include a cover page indicating your name, student number, and course. Professional appearance will be considered as part of your mark.

Please save your file as a PDF and submit the assignment by uploading to the assignment dropbox.
