

## Guiding Questions

1. Have you familiarized yourself with the LEARN platform?
2. Do you understand how the course is structured and how you will be evaluated?
3. Have you checked out all of the resources for this first week?

### Introduction

This first week is all about getting to know your course. You will clarify the course expectations, familiarize yourself with how the course is structured, and begin to use the LEARN tools.

### Performance Indicators

1. Use the LEARN environment as it relates to this course.
2. Summarize the expectations for this course.

### Assessments

There is nothing due for marks this week, but now is a good time to carefully read the 'assessment and evaluation' section of your course outline.

How many assignments are there?  
Do you have any tests?  
What are things worth?  
When are things due?  
How do you submit your work?  
How can you clarify any questions?

### How to Proceed

1. Read the Course Overview.
2. Read the Course Outline.
3. Read the Student Guide.
4. Read the Discussion Post Guidelines.
5. Introduce yourself on the discussion forum.
6. Send your instructor a brief 'hello' message using LEARN email.

### Resources\*

1. Course Overview
2. Course Outline (in FAR\*\*)
3. Student Guide (in FAR)
4. Discussion Post Guidelines (in FAR)
5. Discussion Forum – Introductions

\* All course resources are online, except the required textbook. All of the online resources can be accessed from the Content section in your LEARN course.

\*\* FAR: Frequently-accessed Resources – this is a folder located in the Content section in LEARN.
